**CORPORATE PURCHASING CARD OVERVIEW**

**BACKGROUND**

The Comptroller of Maryland's General Accounting Division provides central management and administration for the State Corporate Purchasing Card Program. **State agencies must comply with policies, procedures, and instructions contained in this manual for use of the purchasing card. Failure to comply will result in the suspension and/or termination of cards.**

*A Statewide Corporate Purchasing Card Steering Committee provides oversight for the review and approval of all policies and procedures. Additionally, the Steering Committee monitors card activity reports to make improvements in the State's procurement systems.*

The Corporate Purchasing Card Program saves time and money. By allowing the bank and the merchants to process most of the paperwork, the state eliminates the need to issue purchase orders and reduces the number of invoices and checks utilized in the purchasing/procurement process. It helps agencies obtain small dollar value items in a more efficient and cost effective manner. Vendors also benefit by eliminating invoices and receiving payments normally within two days of the purchases.

While it is the intent of the program to improve the efficiency and effectiveness of the agency's small dollar procurements, nothing in this policy and/or procedures is intended to replace current policy and/or procedures defined in the Finance and Procurement Article or in COMAR Title 21, or included in your agency's internal policies and procedures. The guidelines in this manual are to act as the minimum standards for the operation of the Corporate Purchasing Card Program. Agencies may establish supplemental procedures that are more stringent than the rules established in this manual.

Corporate purchasing cards and card services are contracted by the State. The General Accounting Division is responsible for the management of the statewide corporate purchasing card contract. The contact information for the current card vendor is contained in the Contact Information section of this manual.

**BENEFITS**

The corporate purchasing card system benefits the State of Maryland by reducing paperwork, cost, and processing of accounts payable for small dollar purchases. Vendors who accept corporate purchasing cards are paid much faster. The State receives an annual rebate from the card vendor.

**MBE/WBE/SBR REPORTING**

The Comptroller of Maryland's General Accounting Division has developed a program that matches a State certified Minority Business Enterprise, Small Business Reserve and Veteran Owned Business lists the corporate purchasing card transaction data. The results of the program match can be viewed in R\*STARS's VIEWDIRECT as follows:

- The Minority Business Enterprise report is A30USB11
- The Small Business Reserve Reporting is A30USB12
- The Veteran Owned Business is A30USB13

Since the card vendor's data uses unedited taxpayer identification numbers provided by the merchant, you may need to make manual corrections to the report based on your review of the statistics reported for each taxpayer identification number and name combination reported.

**CONTROLS**

The State of Maryland Corporate Purchasing Card Program uses both internal management controls, as well as features and reports from the card vendor's system, to manage and review the process to ensure that procedures are followed.

***Participating agencies and cardholders are required to adhere to all guidelines outlined in the CPC Manual. Failure to comply with this manual or failure to comply with any special directives from the General Accounting Division may result in the suspension and/or termination of either select card(s) or the entire agency.***

**STATE OF MARYLAND**  
**CORPORATE PURCHASING CARD PROGRAM**

**SECTION 1     INTRODUCTION**

- .01**     This policy covers the implementation of the Corporate Purchasing Card Program and establishes minimum standards for possession and use of corporate purchasing cards.
- .02**     The Corporate Purchasing Card Program was established to save the state time and money. By allowing the bank and the merchants to process most of the paperwork, the state eliminates the need to issue purchase orders, reduces the number of invoices and checks utilized in the purchasing/procurement process. It helps agencies obtain small dollar value items in a more efficient and cost effective manner. Vendors also benefit by eliminating invoices and normally receiving payment within two days of the purchases.
- .03**     While it is the intent of the program to improve the efficiency and effectiveness of the agency's small corporate purchasing methods, nothing in this policy and/or procedures is intended to replace current policy and/or procedures defined in the Finance and Procurement Article or in COMAR Title 21, or included in your agencies internal policies and procedures. The guidelines in this manual are to act as the minimum standards for the operation of the Corporate Purchasing Card Program. Agencies may establish supplemental procedures that are more stringent than the rules established in this manual.

**SECTION 2     CORPORATE PURCHASING CARD OVERSIGHT**

- .01**     The Comptroller of Maryland's General Accounting Division is responsible for the Statewide contract administration of the Corporate Purchasing Card Program. The General Accounting Division will issue overall policy guidance, pay the bank for all purchases/credits made by participating agencies, and post related agency charges/credits to the central financial accounting system.
- .02**     Each agency is responsible for determining if a purchase under this program meets state law, regulations, policies, and procedures. The agency's internal audit staff should take an active role in these determinations.
- .03**     The approving officer (agency head), or their designee, is responsible for designating a Purchasing Card Program Administrator (PCPA) who shall function as the agency's liaison between their cardholders, the bank, and the Comptroller of Maryland. This individual should have the authority to make decisions about CPC for that agency.
- .04**     The agency's fiscal officer is responsible for the fiscal oversight of the agency's Corporate Purchasing Card Program. The agency's fiscal officer, or individual designee of the agency's fiscal officer, will assign the agency PCPA, will approve the issuance of cards, ensure prompt reconciliation of monthly bank statements, and prepare statistics and reports necessary to manage and control all card activity.
- .05**     In the event that a new PCPA is assigned, the agency's fiscal officer is responsible for notifying GAD to ensure the removal of the former PCPA's access to the CPC software and creation of the new PCPA account.
- .06**     The agency's fiscal officer or designee is responsible for the proper setup and maintenance of the Account Code Numbers assigned to each cardholder. The General Accounting Division will provide the necessary guidelines (Exhibit F) and assist the agency to accomplish the task.

- .07 The responsibility for the program rests with the assigned agency's PCPA, the Authorized Reviewer, the agency's internal audit staff, and the agency Fiscal Officer. The Comptroller's Office will primarily coordinate all program activities through the PCPA and provides general oversight for the program.

### SECTION 3 AGENCY IMPLEMENTATION GUIDANCE

- .01 **Agencies must have specific policies and procedures to implement this program.** The provisions of this policy statement need not be repeated in the agency policy; however, these minimum standards must be met. If an agency deviates from the *CPC Policy and Procedures Manual* that agency must submit a plan in writing and receive the approval of the CPC Steering Committee before proceeding. The plan must address how the agency is going to limit fraud, waste and abuse on the card.
- .02 Agency policies should address any purchases that the agency wishes to prohibit or further restrict, **in addition to**, those purchases prohibited or restricted by this policy.
- .03 **Agency policies should address the Activity Log review process, required approvals and authorizing procedures.**
- .04 The Corporate Purchasing Card's state policy will be available to all personnel responsible for the implementation and maintenance of the program via the Comptroller of Maryland's Website:  
<https://www.marylandcomptroller.gov/state-agencies/accounting/corporate-purchasing-cards.html>

**.01** The following guidelines will apply to the assignment of the Corporate Purchasing Cards:

- a. Limited to State of Maryland employees; ***no volunteers, contractors, county or federal employees.*** Part time and contractual employee are allowed a card if paid by the Central Payroll Bureau.
- b. PCPAs cannot have a corporate purchasing card. Any exception to this must be **approved by GAD**;
- c. Limited to employees who have not had personnel incidents which impact the use of the card;
- d. Limited to employees specifically approved by agency head or agency head designee and authorized to purchase items and spend State funds;
- e. Limited to employees who sign a Corporate Purchasing Card agreement and who will be subject to personnel discipline procedures in the event of abuse or failure to comply with established guidelines;
- f. Requires PCPA and agency fiscal officer (or designee) to approve the issuance of a card;
- g. Monthly credit card limits should be consistent with the authorized monthly spending limits established by the agency. Credit limits should not be substantially greater than the cardholders' pre-authorized monthly spending authority; and
  1. Credit limits over \$5,000 need the approval of the Agency Fiscal Officer on New Application Cardholder Information Form or the Cardholder Information Maintenance Form
  2. Credit limits should be reviewed annually by the PCPA to ensure that the current limit is in line with the cardholders monthly spending trends
  3. Credit limits over \$50,000 need email approval from the General Accounting Division. Excessive credit limits without prior approval may be decreased without notice by GAD
- h. Cards no longer in use, or where no purchasing activity has been recorded for a 6-month period, must justify to the agency PCPA why they still need a card. If the agency PCPA determines that a card should remain active after a period of 6-month inactivity, the agency PCPA should contact the GAD CPC Global Administrator to seek an exception. The agency PCPA should provide justification for each card to remain active which will be kept on file by GAD to document the exception.
- i. Cards with no activity for a 12 month period are subject to be deleted from the bank's reporting system, without notice by GAD.

The Comptroller of Maryland recommends that the agency head or designee verify that a criminal background check has been completed by the State of Maryland, Department of Public Safety and Correctional Services, for each cardholder assigned a Corporate Purchasing Card. In order to maintain the confidentiality of the background check, all administrative handling should be completed by the agency personnel office.

A credit check for cardholders is also recommended to insure trustworthiness of the employee. While the credit of an employee has no bearing on the CPC card, a history of bad credit decisions by an employee could be an indicator for abuse of the CPC card.

## SECTION 6     **REQUESTING A CARD**

- .01     The agency's PCPA is responsible for requesting cards for the employee who will use them on a regular basis. If your position requires you to make purchases on a regular basis, the Corporate Purchasing Card may help you in your everyday tasks. To obtain a card, please follow these simple steps:
- a.     Submit a formal request for a card to your immediate supervisor;
  - b.     If appropriate, the immediate supervisor will approve the request and forward the request to the agency PCPA;
  - c.     After receiving the formal request, the agency PCPA will send the "Cardholder Information Form" (Exhibit B), the "Cardholder Agreement Form" (Exhibit A), and a **copy of the State of Maryland Corporate Purchasing Card Program Policy and Procedures Manual (or if applicable the USM's Policies and Procedures)**. The employee will complete the forms, sign the forms, and return them to the agency PCPA or designee. The PCPA or designee may complete the forms in advance, but the cardholder must review the forms and the State of Maryland *Corporate Purchasing Card Program Policy and Procedures Manual* (if applicable, USM's Policies and Procedures) and sign the forms prior to approval.
  - d.     If approved, the completed "Cardholder Information Form" and "Cardholder Agreement Form" will be forwarded to the agency fiscal officer or designee for approval. The fiscal officer should also ensure that the employee's job includes purchasing goods on a regular basis.
  - e.     The completed and approved forms will be forwarded to the agency PCPA. If approved, the agency PCPA will enter the Cardholder information on-line into the computer system.
  - f.     The card vendor will forward the card to an agency contact: the Agency Card Recipient within five (5) business days. This person should not be the PCPA. Cards are sent via overnight delivery to the Agency Card Recipient. This is the only person authorized to receive cards for the agency. Any personnel changes need to be made through the CPC Program Coordinator.
  - g.     **Before the cardholder receives the card, the PCPA provides written instructions to the cardholder regarding the use of the card. Basic instructions regarding the use, record keeping, allowable purchases, and emergency numbers in case of lost/stolen cards will be discussed and the cardholder will formally acknowledge receipt of the card and instructions.** [Refer to section 3 Agency Implementation Guidance]
  - h.     The cardholder may begin using the card as soon as the cardholder calls the 1-(800) number that is identified on the activation sticker on the card.

**SECTION 7      ISSUING CORPORATE PURCHASING CARDS**

- .01**      The PCPA will issue Corporate Purchasing Cards to cardholders only upon signed written approval of the agency's fiscal officer or designee or the agency head or designee. The card will be issued in the name of an employee with the name of the agency or unit embossed on the plastic. **Issuing a card in the name of a department or program is strictly prohibited; any such card will be deleted immediately by GAD.** All cardholder information must be reviewed and approved by the agency fiscal officer or designee prior to submittal to the PCPA for handling. (See Exhibit B-Cardholder Information Form).
- .02**      The cardholder, the cardholder's manager, the agency's fiscal officer or designee, and the PCPA must complete, sign and date a State of Maryland Corporate Purchasing Card Cardholder Agreement Form (Exhibit A) or Travel Account Holder Agreement Form (Exhibit A 1) indicating compliance with the program policy and guidelines. The agency's PCPA will retain the original agreement. The agency may establish guidelines that limit the use of the card more stringently than the rules and guidelines established by the State.
- .03**      Following the agency approvals, the PCPA will enter the cardholder information electronically via the computer system used by the card vendor for issuance of the card. The card vendor will distribute the Corporate Purchasing Cards directly to the Agency Card Recipient on file at the bank. The General Accounting Division will review card lists on a monthly basis using the card vendor's software system.
- .04**      The individual who is to receive the Corporate Purchasing Cards (Agency Card Recipient) must be independent of the agency PCPA duties. The agency's PCPA **must not** be the one to submit Corporate Purchasing Card applications **and** receive the cards in the mail from the card vendor. The agency representative receiving the cards from the bank **MUST NOT** be the agency's PCPA. It is mandatory that this duty is separate from the PCPA function. The agency's PCPA is responsible for correcting any errors in the cardholder Account Code Number with the card vendor before the issuance of the card.
- .05**      The name of the person receiving the CPC cards for the agency must be provided to GAD contact by the PCPA's supervisor, the agency Fiscal Officer or agency head. The contact information will not be accepted from the PCPA. The names of the Agency Card Recipients are logged and information sent to the bank when any changes occur. The bank will not accept changes to the Agency Card Recipient List directly from a state agency.

**SECTION 8      HOW THE CORPORATE PURCHASING CARD WORKS**

Any merchant that can process VISA for purchases can accept this Corporate Purchasing Card. Each merchant contracts with a bank to have its card receipts processed. The bank provides the merchant with the necessary equipment and communications link into our current type of card network. Our current type of card accesses the card vendors' database of cardholder information by communicating with the bank's corporate card processor.

The typical operational procedures associated with Corporate Purchasing Card purchases are as follows:

- a. A State of Maryland employee presents his/her Corporate Purchasing Card to a merchant to make a business purchase. (A purchase could be made over the

COMPTROLLER OF MARYLAND  
GENERAL ACCOUNTING DIVISION

---

telephone, Internet, facsimile). Remind the merchant that this is a tax-exempt purchase. **Note: As a point of information, the merchant will not request an authorization for the purchase until the employee receives the items purchased and/or shipment is made via an appropriate carrier.**

- b. The merchant typically uses an electronic point-of-sale terminal to submit the total purchase for authorization. If automated equipment is not available, the authorization request is telephoned into the card vendor.
- c. The cardholder number is used to determine whether any limits or restrictions for that employee, at both the statewide level and agency level, have been exceeded or controls have been breached by using the card at this time and with this merchant. Authorization typically takes just a few seconds. If authorization is granted, the purchase is completed and the database is updated to include the authorization. If authorization is denied, this is also noted on the card vendors' database.
- d. The merchant summarizes daily receipts and submits them to the merchant-processing bank for payment, usually at the end of the business day.
- e. The following day the merchant's account is credited by the bank. The bank's corporate card processor transmits transaction detail and daily reporting information to the card vendor.
- f. The card vendor provides reporting information to the State of Maryland in a web-based format. Individual state agencies may view the database in real-time. The General Accounting Division receives a file monthly containing the billing information for all state agencies. When interfaced into R\*STARS, transaction details can be viewed in ViewDirect by requesting A30USB04 - Detail Transaction Report for R\*STARS Interface.
- g. Return of merchandise to the merchant and/or disputes resulting in the issuance of a credit to the cardholder are posted each day along with the purchase transactions and are updated in the database for subsequent transmittal to the State of Maryland.
- h. The General Accounting Division settles with the card vendor for purchase amounts on an agreed upon schedule. The General Accounting Division verifies the transaction count and the total of the bill received from the card vendor and then distributes the charges and/or credits to the appropriate agencies.

## SECTION 9 CORPORATE PURCHASING CARD USE

- .01 Normally, a card will have a Single Purchase Limit up to \$5,000 per transaction. Emergency Response cards are set to \$25,000 per transaction. **Transactions may not be split to circumvent the Single Purchase Limit.**
- .02 Corporate Purchasing Cards shall only be used for authorized purposes that "further the business of the State":
  - a. The CPC cannot be used for airline, trains or other travel charges. (Rental car and hotel/motel transactions are allowed by the state - cardholders should check with their PCPA's to verify that these transactions are allowed by their agency).
    - i. **NOTE: Non-refundable hotel/motel and/or conference charges due to cancellation are the responsibility of the traveling employee, subject to management discretion.**
  - b. AIRBNB and similar services are prohibited.
  - c. A separate travel account is available. See Section 22 for details.

- g. GAD reserves the right to block or open MCCs as necessary to ensure the program runs efficiently while limiting fraud, waste and abuse.

**.04** See your agency PCPA for the full list of MCC codes.

**.05** Purchases should be made in accordance with Maryland's Green Purchasing requirements: (See <https://dgs.maryland.gov/Pages/GreenPurchasing/Resources/Specifications.aspx>)

**.06** **Cash Advances/money orders are strictly prohibited.**

**.07** Sharing a card or account number is prohibited.

- a. Cardholders sharing a CPC are personally liable for the purchases of the other party.
- b. This restriction includes executive level staff.
- c. Employees should be issued a card only if they are making purchases on a regular basis.

**.08** **Purchase of Gift Cards is prohibited. Purchase of any cash like instrument with the card is strictly prohibited.** A 45-day suspension of CPC privileges will be imposed by GAD on any cardholder purchasing gift cards or other cash like instruments. A State agency purchasing gift cards for any reason, must use R\*STARS or University based financial system for the purchase. Gift cards should be handled the same as working funds or petty cash funds. Working funds and petty cash funds require a formal authorization: a documented receipt for the actual items purchased, and require reimbursement through the transmittal process

**.09** **Contracted Services - 1099 vendors - Effective May 10, 2013 all services where the MCC is open are allowed to be purchased using the CPC. COMAR and all other State regulations still apply.**

**.10** When a cardholder signs-up for an account with a company (e.g. Amazon) a separate account is to be used.

- a. A cardholder may not use their personal account for State business. All merchandise must be shipped to the employee work address, unless written prior approval is granted by the Agency head or Fiscal Officer when a secondary business address is used.
- b. Services shall be performed and goods shall be received at a State agency address, unless written prior authorization is received from the Agency Head or Fiscal Officer.
- c. Employee should use the most economical classification of any service. Unless special written approval is granted by the Fiscal Office to use a premium plan. A premium plan must **“Further the Business of the State”**.

**SECTION 10    CARDHOLDER LIMITS**

- .01 Specific restrictions apply to all Corporate Purchasing Cards for all State of Maryland employees. **Section 9** identifies these restrictions.
- .02 The primary advantage of the Corporate Purchasing Card is the various limits that can be assigned to each cardholder to limit purchasing authority. These limits allow State Agencies to extend purchasing responsibility to many more individuals in the current purchasing environment while maintaining, or even increasing control over the agency’s purchasing budget. The following limits can be uniquely established for each Corporate Purchasing Cardholder:
  - .03 *Spending amount per cycle:* The cardholder can only incur transactions totaling this amount for each billing cycle.
  - .04 *Number of transactions per cycle:* Each cardholder can be limited as to the number of purchase transactions that can be made in a monthly billing cycle.
  - .05 *Purchase amount:* Each purchase transaction for which authorization is requested will be verified against this amount.
  - .06 *Number of transactions per day:* On a daily basis, the cardholder can be limited to the number of purchase transactions specified. Every transaction will also affect the monthly transaction limit once it is posted.
  - .07 *Merchant category:* Each cardholder may be assigned one or more Merchant Category Code restrictions. These codes include various merchant categories or a group of Standard Industry Codes (SIC), depending on the type of purchases you would like them to make. The seven primary merchant categories are:
    - *Transportation*
    - *Utilities*
    - *Retail*
    - *Auto & Vehicles*
    - *Clothing Stores*
    - *Miscellaneous*
    - *Business/Repair Services*

The Merchant Category Codes (MCC) is designed to offer every combination possible for the above listed categories, plus several unique SIC code groups. MCCs can be coded to individual purchasing cards that preclude purchases from designated types of merchants (liquor stores, etc.). The restriction is imposed at point-of-sale if the merchant requests authorization for the transaction.

- .08      **THE PURCHASING CARD MAY NOT BE USED FOR CASH ADVANCES.**

**SECTION 11      CORPORATE PURCHASING CARD SECURITY**
