Note: These tax rates are used for computing tax on individual tax return. Maryland law does not permit the use of a rate of less than 4.75% to be used for withholding tax purposes.

Reminder: Legally married same-sex couples must file as Married Filing Jointly or Married Filing Separately for tax year 2024. Employees wishing to adjust their withholding to reflect married status should complete a new Maryland Form MW507, as well as federal Form W-4.

PERSONAL EXEMPTIONS

Employees may be required to adjust their personal exemption amount if their federal adjusted gross income exceeds \$100,000, or if they wish to use their excess itemized deductions as exemptions. These employees should refer to the Maryland Exemption Certificate (Form MW507) for guidance to determine how many exemptions they may claim.

As an employer, you are to treat each exemption as if it were \$3,200.

COUNTY RATES

Local tax is based on taxable income and not on Maryland state tax. Listed below are the actual 2025 local income tax rates.

We provide separate tables for the convenience of employers who do not withhold using an automated or computerized system, or who prefer to look up the amounts to be withheld manually. For these tables, we have continued our practice of grouping the local income tax rates into rate brackets. For 2025, we will use the following brackets: 2.25%, 2.40%, 2.65%, 2.75%, 3.00%, 3.05%, 3.10%, 3.20% and 3.30%. Refer to the county listing below and use the table that agrees with, or is closest to, without going below the actual local tax rate. Employers will use \$3,200 as the value of an exemption when using the withholding tables. There is no need to adjust for any reduction in the exemption amount as employees are instructed to reduce or "phaseout" the number of exemptions being claimed on their Exemption Certificate, Form MW507.

Note: For 2025, local rates for some counties have been adjusted (Anne Arundel*, Calvert, Cecil, Dorchester and St. Mary's).

Allegany	3.03%	Howard	3.20%
